

ACCU-PROOF®

PROOFING SYSTEMS

ULTRA SERIES TECHNOLOGY

ULTRA SERIES PROOFING SYSTEMS

Adjustable Drive Cage® (ADC)

- Longer Drive Chain Life
- Lower Maintenance Cost
- No Welding or Drilling

Precision LUB

- Increases Drive Chain Life
- Reduces Oil Consumption
- Fully Automatic Application

Direct Main Drive

- Superior Hygiene
- Less Maintenance Points
- Eliminates Chains & Sprockets

Fail Safe System (FSS)

- Continuous Belt Monitoring
- Protects Belt at Every Level
- Increases Belt Life
- Lower Maintenance Cost

Predictive System Alert (PSA)

- Continuous Monitoring of Components
- Alerts of Conditions Outside the Norm
- Reduced Unscheduled Downtime

Product / Carrier Flexibility

- Not Restricted to one size of pan / Carrier
- Eliminates Need for Magnets or Guides
- Pans / Trays / Boards Fully Supported
- No Need to Group Pans or Trays

Precise Environmental Control

- Steam, Electric, or Glycol Heating
- Live Steam or Water Mist for Humidity
- Cooling for High Ambient Temperatures
- All Products Follow Same Conditioned Path

Optional Cleaning Systems

- Typhoon Belt Washer
- Powerwash 5000
- Jet Dry System
- Automated Cage Cleaning

Insulated Enclosure

- 4" Thick Insulation
- Stainless Finish
- Stainless Camlocks
- LED Lighting

Track Glide Z-6000

- Lowers Belt Tension
- Dramatically Reduces Friction
- Six (6) Multi-Point Applications
- Eliminates Contamination

Air Circulation System

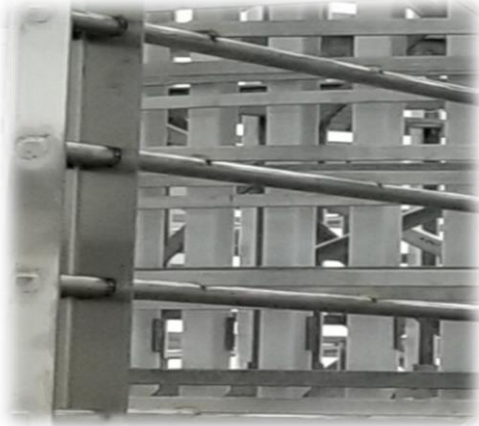

- Stainless Round Ductwork
- Clean-Out Ports
- Easy to Clean & Sanitize
- UV Technology

ULTRA SANITARY HYGIENE

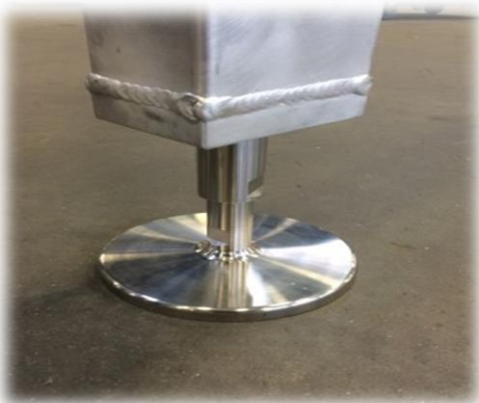

LEVEL 3

- All Stainless Construction
- Fully Welded SS Product Zone
- Welded Round Track Supports
- SS Motors / Reducers Available
- Bearings: Maintenance Free

LEVEL 2

- All Stainless Construction
- Product Zone: Bolted Stainless
- Stainless Round Track Supports
- Auto Grease System (AGS)
- Stainless Hardware

LEVEL 1

- Aluminum and Stainless Materials
- Modular Bolted Constuction
- Plated Bearings and Hardware
- Sanitary Feet with No Threads

SINCE 1919
