AUTO GREASE SYSTEM (AGS) PERFORMANCE UPGRADE RETROFIT

AUTO GREASE SYSTEM (AGS):

This latest technology increases the productivity and availability of your spiral system. Bearings in your system are automatically lubricated while the system is running, reducing downtime for maintenance and eliminating contamination due to over-lubrication.

AGS BENEFITS:

- **Reduces Risk of Downtime**
- **Increases Production Availability**
- **Reduces Maintenance Time and Cost**
- **Improves Bearing Life by Reducing Friction**

AGS FEATURES:

- **Automated System**
- **Easy to Install and Set Up**
- **Delivers Correct Amount of Grease**

SCOPE OF SUPPLY:

- **All Components and Parts**
- **Program Upgrades for your PLC**
- **On-Line Support by IJ White Technicians**
- **Includes Installation Video and Instructions**
