AUTOMATIC CHAIN OILER PRECISION-LUB PERFORMANCE UPGRADE RETROFIT

PRECISION-LUB AUTOMATIC CHAIN OILER:

This latest technology increases the reliability of your spiral system. The main drive chain in your system is automatically lubricated while the system is running, increasing the life of this critical component.

PRECISION-LUB BENEFITS:

- Increases Chain Life by Reducing Wear
- Reduces Unscheduled Downtime
- Reduces Lubrication Consumption
- Reduces Maintenance Time and Cost
- Protects Critical Main Drive Component

PRECISION-LUB FEATURES:

- Replaces Brushes for Lubrication
- Eliminates Over-Lubrication
- Automated Synchronized Application
- Applies Oil Directly to Internal Pins
- Easy to Install and Set Up
- Optional Oil Level and Flow Rate

SCOPE OF SUPPLY:

- All Components and Parts
- Mounting Hardware
- Program Upgrades for your PLC
- On-Line Support by IJ White Technicians
- Includes Installation Video and Instructions
