AUTOMATIC BELT TENSION (ABT) PERFORMANCE UPGRADE RETROFIT

AUTOMATIC BELT TENSION (ABT):

This patented design extends the belt life by lowering system tension and reducing rod and picket wear. When incorporated as a retrofit with a new belt replacement an extended warranty can be offered on the belt.

ABT BENEFITS:

- Longer Operating Belt Life
- Reduces Maintenance Time and Cost
- Reduces Risk of Downtime Due to Belt Failure
- Smoother Conveying Improves Product Orientation

ABT FEATURES:

- Lowers Belt Tension
- Easy to Install and Set Up
- Less Belt Drag and Stretch
- Reduces Rod and Picket Wear

SCOPE OF SUPPLY:

- All Components and Materials
- All Mounting Hardware
- On-Line Support by IJ White Technicians
- Includes Installation Video and Instructions
