

Certified Re-Engineered System Bulletin:

Description: Blast Freezing System
Model Number: 1-24/24-AL-120-C.W.
 IJW09507: Multi-Path
Application(s): Ambient Cooling
Condition: Good
Belt Width: 24" (609.6mm)
Direction: Ascending/Descending
Overall Height: 13'14" (3.96M)
Frame Material: Aluminum
Belt Material: Modular Plastic
Belt Type: Ultra Series
Belt Length: 1100' (335.28M)
Levels: 10 INSIDE / 8 OUTSIDE
System Diameter: 22' 2" (6.71M)

"Every IJ White Certified Re-Engineered System offers a full OEM Warranty."

Our 5-Star Certification Process

starts with rigorous guidelines. Every system has to go through a comprehensive certification process and not all systems qualify.

Our System Inspection Team takes on an exhaustive personal overview of the process. From Main Drive Components, Reducers and Motors, to Pulleys and Wear strips, the system is reworked with a full IJW Manufacturer Warranty.

5 Star Certification Features:

- ★ Full Manufacturer's Warranty
- ★ Configuration Upgrades: Down-Go, Up-Go, CW/CCW
- ★ New Wear Components: pulleys, sprockets, rollers, wear strips and bearings
- ★ Sanitized and cleaned
- ★ Belt Inspection and Approval.

How to get started:

1. Complete an IJ White Product Specification Sheet.
2. Schedule an appointment to meet our Sales Engineering Team.
3. Review of Specifications, Customization and Project Viability.
4. Finalize and receive a System Proposal.
5. Review proposal and ensure all major deliverables have met project expectations.
