20 Executive Boulevard, Farmingdale, NY 11735

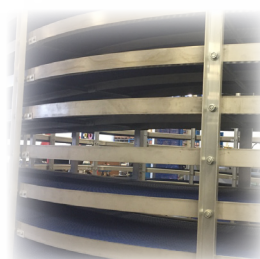

NO CENTER DRUM

- Ultimate Layout Flexibility
- Oval or Circular Configurations
- Build Around Columns or Obstructions
- Internal Refrigeration Saves Floor Space

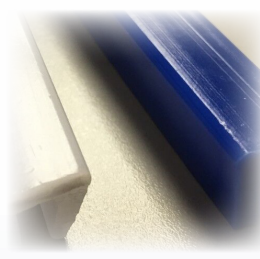

LOW MAINTENANCE

- Easy Access External Bearings
- Heavy Duty Robust Construction
- Split Sprockets For Quick Change
- External Drive & Reducer For Service

MODULAR DESIGN

- Add Production Capacity
- Increase Residence Time
- Future Expansion Capability

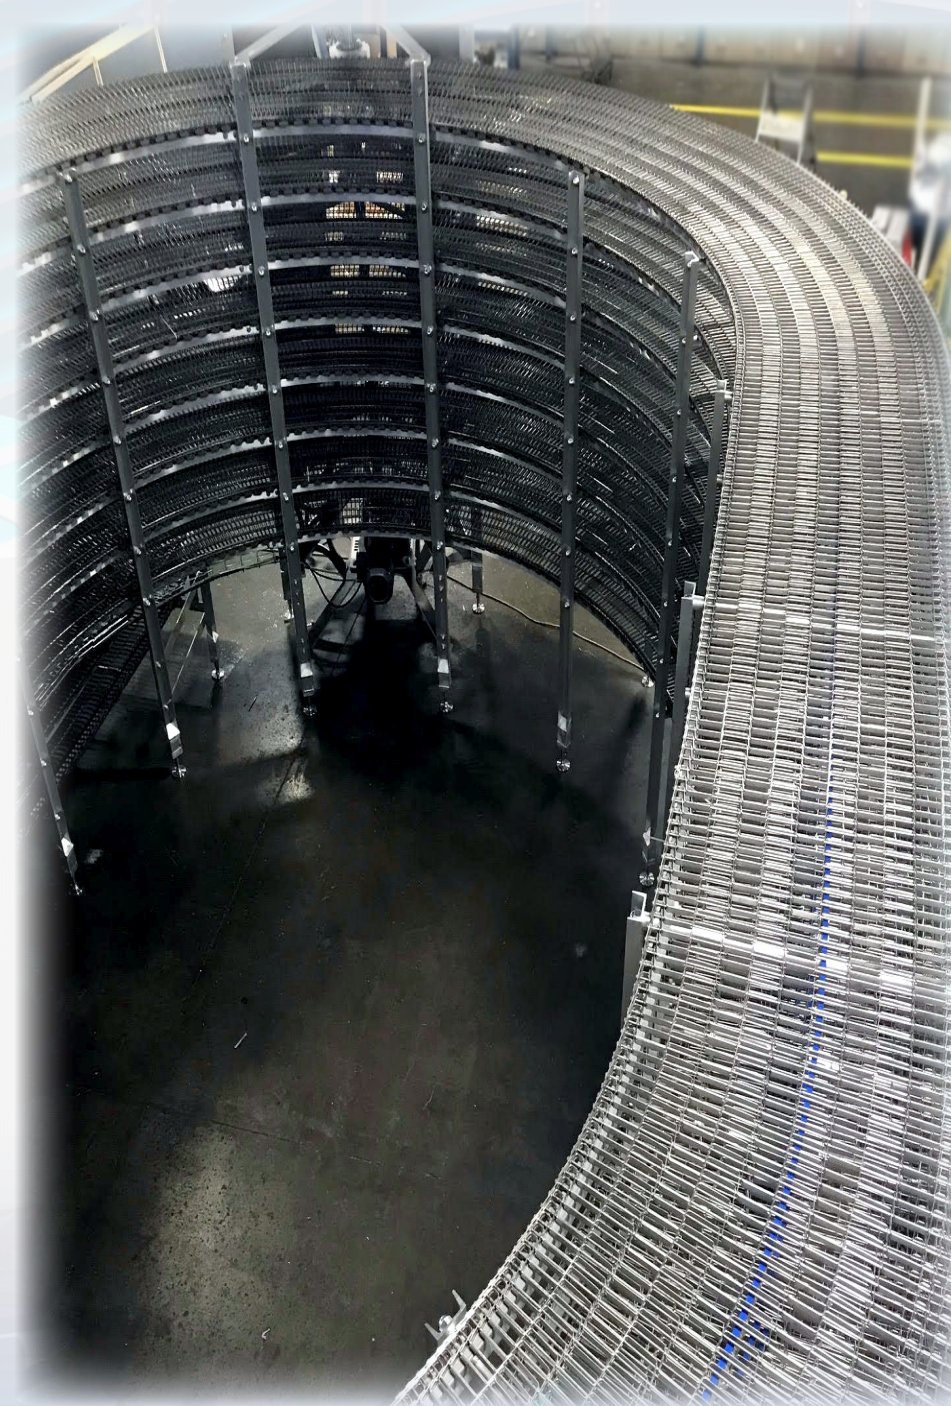

ULTRA 4000 WEAR STRIP

- Not Brittle Or Rough
- Zero Regrind Material
- 20% Lower Co-Efficient of Friction

ENVIRONMENTAL CONTROL

- Air Flow Baffling
- Freon, Glycol or Ammonia
- Stainless Finish Enclosures
- Freezing or Refrigerated Cooling

SUPERIOR SANITARY WASHDOWN DESIGN

- Hygiene Level 1, 2 or 3
- No Interior Cage Structure
- Solid Stainless Bar Track Support
- U-Channel Frame: No Enclosed Tubes

CLEANING SYSTEMS

- Powerwash 5000
- Typhoon Belt Washer
- Jet Dry: No Compressed Air
- Total Cleaning Systems (TCS)

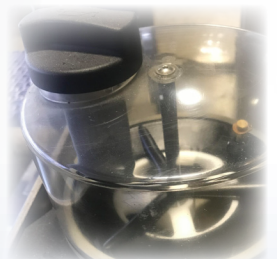

PREDICTIVE ALERT (PSA)

- Reduced Unscheduled Downtime
- Trending Alerts Outside the Norm
- Continuous Component Monitoring

TRACK GLIDE Z-6000

- Longer Belt Life
- Lowers Energy Cost
- Lowers Belt Tension
- Reduces Contamination Risk

SINCE 1919

**I.J.WHITE
SYSTEMS**
"Putting Innovation Into Motion"

ULTRA SANITARY HYGIENE

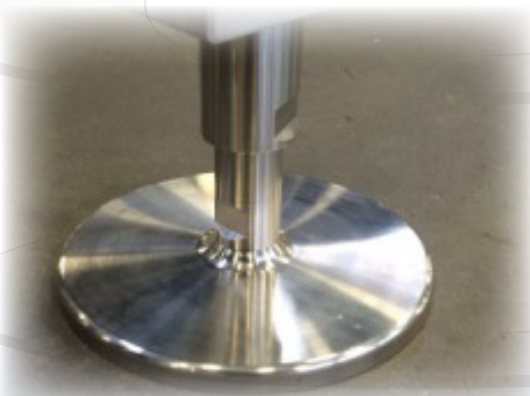

LEVEL 3

- All Stainless Steel Construction
- Fully Welded SS Product Zone
- Welded Round Track Supports
- SS Motors / Reducers Available
- Bearings: Maintenance Free

LEVEL 2

- All Stainless Steel Construction
- Product Zone: Bolted Stainless
- Stainless Round Track Supports
- Auto Grease System (AGS)
- Stainless Steel Hardware

LEVEL 1

- Aluminum & Stainless Materials
- Modular Bolted Construction
- Plated Bearings and Hardware
- Sanitary Feet with No Threads
